** SPORADIC E saison, inputs to MMMonVHF and Observation 2011 **

In case of an ES opening on 144 MHz please remember to send all your
QSO in a short Log to MMMonVHF - HOW? Please go to the MMMonVHF forum
www.mmmonvhf.de/minibb/index.php?action=vthread&forum=11&topic=80
and read about our "call for reports". The text will be available
in several languages. or use direct the input at:

http://www.mmmonvhf.de/es.php >>> click on "Send your Report"

Remember please that we are going to publish ONLY 144 MHz Logs - if
we get input for 6m, 4m or 3m reports we do use it for the headline.
As you all know, the most necessary at a SPORADIC E Opening will be
to be at the right time at the right place. As well every of us will
have some "warning" systems for the time between May to August.

** New beacon transmitting in WSPR mode from EA1 **

Hi all. Let me give you some good news: A new solar powered beacon
is active from EA1 in CW on 144.425 owned by EA1HBX. Also, since July
2nd a new beacon is operative on 432 Mhz in ROS mode. These beacons
are high enough to give surprises.. and we're ready to feed them with
new and better antennas. The WSPR beacon on VHF is now in the right
QRG: 144.489 and has a GPS attached for a better accuracy. All details
here (google translation available): www.ea1uro.com/balizas.html

** 4L1AN on 6m (as well EME) in month july **

Tom K5BM could not be present to help during moonset Monday, because he needed to be with his son who is quite ill. Also for that reason, they had to dismantle the EME station and return early to Tiblisi where better care could be obtained for Tom's son. They are sorry that they were unable to provide additional contacts, but health and safety had to take priority. 4L1AN hopes to be able to obtain

additional temporary 6m license approvals in the future after he completes construction of his own amplifier, so future 6m EME operations from 4L may be possible. Many thanks to K5BM and 4L1AN for their tremendous effort and sacrifices to make the first 6m EME contacts from that DXCC!

** Maldives, 8Q, activated by Cesare, I0WDX on HF and 6m **

Cesare, I0WDX, will be active as 8Q7CC from Furanafushi Island, North Male Atoll, Maldives, between November 2-12th. He informs OPDX that he will be active on 20-6 meters, including the WARC bands, using an Icom IC-7000 into a Cushcraft R6000 vertical antenna. For 40 meters he will try to use an inverted V if he has enough space on his water bungalow. He mentions, "Do not know yet if I will be active on CW and RTTY, how

ever, I'll try, but would not incur the wrath of my girlfriend because it's vacation days, hi hi hi. However there is still a long time and I will try to arrange." QSL via his home callsign. Lastly, Cesare states (on Sunday, July 3rd), "This morning I received an E-mail from Mr. Maussouma (from the Ministry of Telecommunications of Male) in which informed me that the call assigned to me is 8Q7CC."
